### DETAILED ACTION

1. The amendment filed December 8, 2010 has been received and considered for examination. Claims 16-32 are presently pending.
2. Claim 16 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claim 30, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, Claim 30 is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on January 12, 2010 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Allowable Subject Matter***

3. Claims 16-32 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art, alone or in combination, fails to teach or fairly suggest the tagged scale-inhibiting polymer recited in presently amended claim 16. The closest prior art to the claimed invention is U.S. Patent No. 6,312,644 B1 (Moriarty et al.). Moriarty et al. disclose a tagged scale inhibiting polymer for treating water systems to prevent the formation of scale (see col. 1, lines 13-23, 39-52; see examples; see claims 1-17; see col. 9, line 59 to col. 10, line 34). However, Moriarty et al. does not teach or suggest a tagged scale-inhibiting polymer comprising the claimed combination of scale inhibiting structural units and tagged structural units as recited in claim 16. Therefore, claims 16-32 are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
